AP Seminar Interested in taking a course that will develop your skills in research, collaboration, presentation and communication? These skills are needed for any academic discipline that you will be taking in your post secondary studies. Students will choose a topic to research in an area that interests them. This AP class is great for students who want to challenge themselves and learn the necessary skills needed for research, presentation and communication before starting post-secondary studies. You do not need to take any other AP courses to take this course, but if you are taking other AP courses you may qualify for the AP Capstone Diploma which can be used for university credit. Please see Mr. Willard or Mrs. Williamson for more information.
