

## **New this year: Diploma Exam result statements are now available through myPass**

Starting with the April 2015 Diploma Exams, students will now need to retrieve their exam results through [myPass](#)—a self-service website for high school students. Result statements for Diploma Exams are now be available exclusively online using [myPass](#). **Printed results statements will no longer be mailed.**

In addition, the Statement of Courses and Marks has been replaced with the Detailed Academic Report (DAR), which is also available exclusively online using [myPass](#).

[myPass](#) enables high school students to:

- access their Results Statement;
- view their demographic information;
- view their DAR;
- view their progress toward their diploma or certificate; and
- order and pay for a transcript.

Specific information on how to sign up for [myPass](#) will be provided to all students who write diploma examinations. Schools will pass along information to their students. More general information on [myPass](#) will be provided to students and schools in the fall of 2015.
