ATHLETICS PHILOSOPHY

We are extremely proud of our athletic accomplishments for all Bev Facey student-athletes.

The goal of our athletic program is to help each student-athlete achieve their academic, athletic and personal potential during their time at Bev Facey. We believe that participating in sports helps prepare these young athletes to become future leaders. Learning how to respond to the challenges they will face as student-athletes helps develop the character and self-confidence that ultimately will define their success. Following their playing days with Bev Facey, we know these students will look back with fondness on the friendships they developed, and the hard work and self-sacrifice it took to be a part of this program.

Bev Facey student-athletes are also part of our athletic leadership program. This opportunity provides students with support and learning with goal setting, time management, team dynamics, as well as the ability to give back to the community with volunteerism.

Student-athletes selected to any BFH team are positive representatives and ambassadors of Facey athletics.

Badminton - Senior
